H) EXAMPLES OF VISUALS

FOREWORD

This toolkit aims to provide your organization with examples of visuals to help the development of programs on the Prevention of Sexual Exploitation and Abuse (PSEA). The four documents gathered here were developed by different organizations and have been selected among the Digna database. The documents are samples of visual information materials, and might be used as examples for each organization to develop their own visually-friendly documents regarding PSEA.

Digna deems some documents as particularly useful for the development of organizations' visuals. For example, the poster produced by Concern Worldwide Rwanda – document 1 in this toolkit – shows how a summarized set of information can be easily and collectively produced alongside interested groups of people.

In turn, the materials produced by Regional Safe Spaces Network / UNHCR, – document 3 in this toolkit – exemplify how to merge organizations' procedures in printable documents to be readily available.

Digna is committed to provide your organization with clear and useful tools. We hope they will help your work while developing visually-friendly information materials on PSEA.
